

# Flux 2.0 - MVP App Structure

## App Foundation

### Navigation Structure

- **Bottom Nav:** Home | Portfolio | Indices | Account
  - **Floating FAB:** Flux AI Chat (always accessible)
- 

## Home Page

**Purpose:** Daily habit dashboard

### What's on the page:

- Date scroll wheel (select any day)
- List of habits scheduled for that day
- Completion status and earnings for each habit
- Flux AI insights card

### Navigation:

- Tap habit → Index Detail (Level 1)
- From Index Detail → Habit Detail (Level 2)

### Drill-down Flow (Progress View):

```
Home Page
↓ (tap any habit)
Index Detail - Level 1
- Shows all habits in this category
- Progress analytics for the category
↓ (tap specific habit)
Habit Detail - Level 2
- Progress analytics for just this habit
- Calendar, charts, stats
```

## Portfolio Page

**Purpose:** Financial overview and savings

### What's on the page:

- Total portfolio value
- Portfolio chart (1W, 1M, 3M, 1Y, All Time)
- All indices/categories with total values
- Savings goals (placeholder)

#### **Navigation:**

- Tap index → Index Detail (Level 1)
- From Index Detail → Habit Detail (Level 2)

#### **Drill-down Flow (Savings View):**

```
Portfolio Page
↓ (tap any index)
Index Detail - Level 1
- Shows all habits in this category
- Savings breakdown for the category
↓ (tap specific habit)
Habit Detail - Level 2
- Savings for just this habit
- Connected savings goal allocation
```

---

## **Indices Page**

**Purpose:** Category overview

#### **What's on the page:**

- All 8 categories (Fitness, Nutrition, Mental Health, Productivity, Financial, Social, Wellness, Misc)
- Your active categories vs inactive categories
- Performance metrics (placeholder for HSS)

#### **Navigation:**

- Tap category → Same drill-down as Home/Portfolio
- 

## **Activity Page**

**Purpose:** Activity timeline and transfer history

#### **Two Tabs:**

### **Habit Activity Tab:**

- Timeline of all logged habits
- Edit/delete entries

### **Transfer Activity Tab:**

- Pending transfers (this week)
  - Historical transfers (past weeks)
  - Delete pending entries
- 

## **Account Page**

**Purpose:** User profile and settings

### **What's on the page:**

- User profile info
  - Aggregate stats
  - Link to settings
  - Help content
- 

## **Onboarding Flow**

**Purpose:** First-time user introduction

### **3 Screens:**

#### **1. Flux Welcome Page**

- Introduction to the concept

#### **2. How to Use Flux AI Chat**

- Explanation of chat interface
- How to interact with Flux

#### **3. Creating Habits Through Categories**

- Explanation of BUILD vs RESIST
  - How habits are organized
  - Rate structure basics
-

# **Flux AI Chat**

**Purpose:** Primary interface for habit management

**Access:** Message FAB (floating action button)

## **Capabilities:**

### **Add Habits:**

- Conversational creation
- Determines category automatically
- Sets up BUILD or RESIST mechanics
- All creation form fields handled through chat

### **Log Habits:**

- Natural language logging
  - BUILD habit completions
  - RESIST habit failures (confessions)
  - All logging form fields handled through chat
- 

## **Core Mechanics**

### **BUILD Habits**

- User logs completions to earn
- Form fields: value/duration/count
- Earnings calculated automatically

### **RESIST Habits**

- User earns automatically
  - Logs failures only
  - Form fields: confession/details
  - Earnings adjusted automatically
- 

## **Key Features**

### **Date Navigation:**

- Scroll wheel to view any day
- Historical data persists

### **Two-Level Drill-Downs:**

- Works from both Home and Portfolio
- Index level → Habit level
- Different data view based on entry point

### **Activity Management:**

- View all activity
- Edit/delete entries
- Track transfers

### **AI Chat:**

- Handles habit creation
  - Handles activity logging
  - Replaces traditional forms
-
